GLOBAL PEACE ON THE MOVE
Our world is changing.

Our generation is one of change...
Besides constant flux in technologies, environments, systems, and trends, the most significant change of our generation is in our thoughts, perceptions, and awareness. Yet in a world where everything is changing so quickly, we need stability and dependability. This is what the peace rebels of the Peace Revolution Global Peace on the Move & Fellowship are seeking...They seek the kind of happiness that is real and permanent... a safe harbor unaffected by waves of changes... in which they do not fear losses or darkness. They are in search for THE ISLAND OF PEACE.
MOOKTAWAN
THE ISLAND OF THE SUN-PEARL
The island of the sun-pearl is nestled away in the Andaman Sea... it was to be the covert training ground for these peace rebels to Master the Art of Inner Peace. Their journey had begun...
In all epic journeys of old, friends are those indispensable companions, who aid each other on the road to happiness. Our dreams begin with a friend who believes in us and will carry us on the road.

On the four station walk rally, the peace rebels, who have never met each other before, play fun games together, such as, “broken message”, “guessing words”, painting the ‘peace wall’ and ‘body logo’. As they discover, a great friendship starts with shared laughs.
Each bubble is perfectly formed, existing for an indefinite period, and it is like a little blessing that fills us with wonder while it lasts. How can a little bubble cause us to laugh, smile and be like little children again? Blowing bubbles is not much different from a bubble inside. You have to “touch” it softly, gently, and “just right”, and then it appears suddenly, out of nothingness... Continue and soon you will be invited to enter ‘inside the bubble’.

“The bubble inside will take you inside the bubble.”
Arranging shoes, sweeping floors, making beds, smiling to friends, walking through a jungle, and clearing leaves are some of the methods to help the mind be still and clear. Body and mind unite in ONE place at the center of the body.

Discipline is the order that sets one free. Discipline leads to success in reaching the goal on the “Island of Peace.” When discipline is sown, like a good seed, it yields harvest that fulfills us—things that make us happy and release peace and joy in our lives.
BODY AND MIND UNITE IN ONE PLACE
THE CENTER OF THE BODY
The more time we spend on the Island of Mooktawan, the closer we come to our island of peace. The only way to cross the ocean of changes to reach the island of peace is to go within, still the mind through the center of the center. Placing the mind softly, loosely, tenderly with care and being “Sabai”...
Let everything go in every way, only be still...nothing more than this. The center of the body will attract the mind, and two will become one. There lies the entrance to happiness and purity, and it was the island of peace that we had been seeking.
After loving-kindness meditation in the morning, the peace rebels practiced yoga together. At the scenic viewpoint, the fresh morning sea breeze flows through the air, stretching while the sun is rising in front, and the moon is setting behind.
Yoga classes help the body so that it is well prepared for meditation. With yoga, the peace rebels become aware that every position needs attention. Even though the body is moving, the mind is still and observing.
The energy and purity of an untainted forest, mountain and the sunrise over unspoiled seashore are the most beautiful sights to the human eyes. It is in nature that we slow down and feel alive. It is a safe place and a refuge from the stressed, fast-paced unnatural world...Deep down we know that this is how the Earth is supposed to be.
Our mind in its natural state is a beautiful sight for the ‘inner eyes’. As it is still and softened, all the “unnatural additions” subside, and the true nature of the mind is revealed. It is pristine, crystal clear, self-luminous, brighter than the midday sun and cool like the moon. The natural mind is a powerful source of goodness and joy. This is the way the mind is supposed to be. Just as luminosity is inherent in the natural mind, so happiness, peace, contentment and love are its natural effects.
A teacher’s effects are infinite…you can never tell where it ends. A good teacher instills the knowledge that can end ignorance and fear while creating brightness in the world. Our teaching monks are that kind of teachers. Dressed in orange robes and experienced in the search for the “Island of Peace,” they freely answer our questions and share their knowledge with humility and wisdom.
Joy flows like a shadow that never leaves

When the mind is pure

Joy flows like a shadow that never leaves
The bright star in our mind is like an instrument meant to end darkness and unknown, and we are doing it together. All our lights together resemble the bright rising sun, that is getting brighter and brighter.
BON APPETIT!

Food fresh from the earth is prepared with care and love to balance a healthy body and a healthy mind.
Cleaning the outer environment when done mindfully becomes a mechanism for cleaning our mind within. With every leaf removed from our path, the path within to the “Island of Peace” becomes clearer. Stillness is a way of life, not a position that we sit in. Meditation is a state of the mind that affects our whole being.
PASSION FOR PEACE
When we’ve had a taste of the True Peace, we cannot keep it only for ourselves anymore. The light within will compell us to share it with others, and we will develop a passion for peace. Passion will drive us forwards, because when it gets hard any rational person would give up.
THE LIGHT OF PEACE EXISTS WITHIN EVERY HUMAN BEING...
The Light of Peace exists within every human being. We were born to discover the Light that is within us. Because the Light is in everyone, as we let our own Light shines, we are also letting other people do the same. Very soon the whole world will be immersed in the Light of Peace, challenging the very existence of darkness.

PEACE REVOLUTION

The Island of Peace is within us and we can be our own refuge in our world!

We are the ones that will change the world because we believe we can!
We are all sons and daughters of the same family.

And we stand together to spread the message of truth and light. In our dream, the whole world wakes up to the light within, and an incredible dawn of peace begins. We are made to shine so that others can find their way to the “Island of Peace” too. While on our way back to our homes across the world, we know of the precious treasure within us. Our intentions are set firmly to bring the light of peace to the world. We are the light. We are the peace. We are the generation the world has been waiting for...
PEACE IN PEACE OUT...
