

Peace Peace Out

WPI KIT 2019

Whenever we see a personal transformation derived from the practice of meditation, mindfulness, and habitual development in people who attended any of our programs, it reminds us that our hard work is being recognized and appreciated.

“ Each minute we have the opportunity to change things and restart. And the only way of restarting is to still the mind for a moment and start again.

WHAT WE OFFER

1. PEACE REVOLUTION

It is an online platform for a lifelong self-transformation. The program helps individuals cultivate inner peace and build a healthier and happier lifestyle in 42 days. Upon starting the program, individuals receive full support from experienced Peace Coaches who become personal mentors throughout the program.

The program consists of four dimensions of learning:

- 1. Self learning guided daily video** to follow the instructions on meditation step by step;
- 2. Record your meditation experience** in a Meditation Journal;
- 3. Challenge yourself and follow acts** of Self-discipline to review your bad habits and see if you can change them to good ones with little daily effort;
- 4. Reflect on a different topic** each day to learn more about yourself, your values and habits.

The program follows the principle:

Inner Peace + **Outer Peace** = **Sustainable World Peace**

After completing **42 days of self-development**, participants can join a 2-week long International Peace Training in Thailand to continue the journey of self-transformation.

It was not only regular meditation practice 4 times a day which is important for slowing down and quieting the mind; this retreat was a training for my mind allowing me to learn a new group of habits and having the opportunity to be mindful in a lot of small details. And small details can make a huge difference!
